

GWENT

MECHANICAL HANDLING LTD

JOIN THE LITHIUM-ION REVOLUTION

Massive fuel savings

Zero emissions

Opportunity charging

Zero maintenance batteries

5 year battery warranty
on forklifts

Same pricing point as IC
forklifts

If the above sounds interesting then it's time to contact Multi Award Winning Gwent Mechanical Handling

We can arrange site visits at your particular forklift application and also have a number of demonstration forklifts available from the EP range, for you to see in operation

STILL

EP lithium-ion forklifts have earned a world-wide reputation for outstanding quality and innovation, offering lithium ion technology that can massively reduce your fuel costs, are zero emission, come with a 5 year battery warranty and are available at a similar price point as traditional IC forklifts. Gwent Mechanical Handling are the Wales main dealer for EP and offer the complete range from entry level power pallet trucks to 7 tonne yard trucks that can replace diesel powered forklifts.

THE LI-ION TRUCKS THAT WILL REPLACE YOUR DIESEL!

EFL252 EFL302 EFL352

- ✓ Built like a diesel truck - great ground clearance and large wheels and tyres
- ✓ Use it indoors and outdoors
- ✓ 2.5 tonne, 3.0 tonne and 3.5 tonne capacity
- ✓ 80V 205Ah/280Ah lithium ion maintenance free battery
- ✓ Fully Charges in approx 3 hours

The EFL series are astonishing forklift trucks that can replace traditional gas / diesel trucks, offer massive fuel savings and at a price point that is actually less than many equivalent diesel forklifts. What I am seeing is that customers are trying out the forklifts on demo, purchasing and then ordering more. This tells you everything."

Idris McCarthy: Managing Director

THE CPD 20L2

The new premium forklift from EP Equipment built around all the advantages of Li-Ion technology. Designed for better ergonomics at high intensity shifts and long working hours, CPD20L2 provides powerful lifting performance and the best in operator comfort. The L2 is a premier solution for mid to large warehouses, docks, side bay lorry, logistics.

- ✓ Opportunity charging
- ✓ Compact and a small, 1585mm turning circle
- ✓ Charge up to 7% capacity in 10 minutes!
- ✓ Dual joystick control
- ✓ Precise driving characteristics

LI-ION BATTERY TECHNOLOGY

Lithium-Ion batteries are the future in the materials handling industry, offering many advantages:

LONGER LIFESPAN

Lithium-ion batteries generally last for several times the number of cycles as lead acid batteries, leading to a longer effective lifespan for lithium-ion products.

OPPORTUNITY CHARGING

Unlike other batteries need a full charge cycle of 8-12 hours to keep the batteries chemistry in balance, Li-Ion batteries enable opportunity charging. A Li-ion battery can be charged several times during work hours to maintain productivity for a full 8-hour shift.

ZERO MAINTENANCE

Lithium batteries don't require active maintenance to extend their service life. That largely eliminates the costs of battery upkeep, maintenance and infrastructure.

HIGHER EFFICIENCY

Most lithium-ion batteries are 95 percent efficient or more, meaning that 95 percent or more of the energy stored in a lithium-ion battery is actually able to be used. Conversely, lead acid batteries see efficiencies closer to 80 to 85 percent.

MORE ENVIRONMENTAL-FRIENDLY

From an ecological point of view, it's non-toxic and harmless. Lithium batteries emits no gas so it is a much cleaner technology and is safer for the environment.

EFL181

THE REVOLUTIONARY ELECTRIC FORKLIFT TRUCK WITH LI-ION AND INTEGRATED CHARGER

You are looking for a simple & easy to service forklift to replace Diesel and Gas trucks? The EFL 181 comes with some amazing features and is a world revolution:

- ✓ Integrated charger with standard 3 pin plug!!
- ✓ Compact size & 1.8 tonne capacity
- ✓ 48v lithium-ion maintenance free battery
- ✓ Opportunity charging
- ✓ Fully charges in 2.5 hours

The EFL 181 Li-Ion forklift is the next generation, entry-level forklift from EP Equipment. It was designed to replace Diesel forklifts on the yard, in warehouses, the countryside and for everybody with occasional usage.

ABOUT US

Established over 35 years ago on the principles of Quality & Excellence, Gwent Mechanical Handling have built up an enviable reputation for high quality customer service. We are the main distributor for STILL, Doosan and EP forklift trucks and provide a complete forklift sales, repair, maintenance and hire service. We are also distributors for other specialist brands including Combilift, Aisle-Master and Ausa Rough Terrain Forklifts.

We have achieved many awards for quality and business practice including the internationally recognised ISO 45001, ISO 9001 and ISO 14001 accreditations. In addition to these we have won numerous Still and Doosan forklift dealer awards.
